Advertisement - Clinical (Assistant, Associate) Professor or Lecturer Position

GEORGIA STATE UNIVERSITY's J. Mack Robinson College of Business (RCB) invites applications for one or more non-tenure track faculty positions in its newly formed Entrepreneurship and Innovation Institute, effective as early as January 2, 2018, but as late as the fall semester (August 1st) 2018. This/these position(s) will have faculty status. Successful candidates should hold a terminal degree (Ph.D., J.D., etc.) in his or her field from an accredited university, certifications in the field of expertise (entrepreneurship and innovation), and be qualified to teach courses in this area at both the undergraduate and graduate levels. The type of faculty position will depend upon the interests and academic credentials of the candidate.

Open Position

We are, in all cases, seeking one or more individuals with a passion and demonstrated capability for developing young entrepreneurs drawn from our Georgia State University student population. We are especially interested in applicants with prior, direct and successful engagement with startup companies.

Clinical Professor (Assistant, Associate)

Clinical Professor position(s) candidates must have demonstrated a high level of classroom performance, have significant applicable professional experience, demonstrated capability for publishing research in refereed journals, and an earned terminal degree from an AACSB-accredited university or international equivalent with a strong orientation towards the area of entrepreneurship and innovation. Preference will be given to candidates with teaching interests in one or more of the following areas: business modeling, corporate innovation, design thinking, start-up and scale-up business development, or related.

The successful candidate will be expected to teach existing courses as well as to contribute to the development of new courses. She or he will also be expected to contribute to the Institute's growing list of non-curricular activities including their creation, participation, mentoring, and general unit support. Successful candidates will also be expected to publish applied and/or pedagogical research.

Lecturer

A university Lecturer is a university academic appointment where it is expected that the largest proportion of the allocable time is spent in course design, preparation and delivery. There are few research expectations. There are service expectations. A Lecturer is expected to keep up with his/her field of practice and bring practical, current knowledge of that field to both the classroom and the overall design of the assigned courses. Career progression allowed (e.g., Senior Lecturer).

Engagement, Innovation, and Impact through Entrepreneurship
While a masters degree in an appropriate field is acceptable, a terminal degree in an aligned area is strongly preferred. Preference will be given to those with several years of diversified teaching experience as well as teaching using more modern pedagogical approaches such as problem-based learning, flipped classroom and experiential learning.

ABOUT OUR ENVIRONMENT

The Entrepreneurship and Innovation Institute (ENI) of the J. Mack Robinson College of Business (RCB) at Georgia State University became an approved academic institute, in mid-2016. It began offering courses for one year prior to its Institute designation. Predecessor course offerings and the Herman J. Russell Sr. Center for Entrepreneurship have existed in RCB for over twenty years. ENI is a significant strategic effort supported by both the university and RCB to build upon, revise and extend these prior efforts under a single academic unit, servicing the university’s needs and desire for furthering entrepreneurship and innovation course and experience offerings among its now, 50,000+ students.

ENI offers degree programs with inter-disciplinary majors in entrepreneurship, alone and in conjunction with the Creative Media Industries Institute and Andrew Young School of Policy Studies (Social Entrepreneurship) at the undergraduate level, its own minor (available to all students at the University) and graduate degrees in conjunction with Biomedical Sciences as well as an entrepreneurship concentration for Robinson College’s MBA’s. Additional efforts are currently underway for program offerings at the undergraduate level. Examples include: an RCB undergraduate major in ENI (recommended for approval by the Board of Regents), and an MSc or MIS offering in ENI. Student growth for our current offerings, thus far, has been exponential (students and credit hours).

Georgia State University (GSU) is a leading public urban research University located in the heart of Atlanta. It is one of four state-designated research universities, and has the fastest growing research portfolio of any school located in the Southeast. It is among the top 150 most research productive universities in the United States over the past five years. The Robinson College of Business is ranked as the 25th most research productive U.S. business school (and 31st globally) according to the University of Texas at Dallas Top 100 Business School Research Productivity Index. Salary and benefits are competitive with universities, colleges and units of similar stature.

Georgia State University is an Equal Opportunity Employer and does not discriminate against applicants due to race, ethnicity, gender, veterans status, or on the basis of disability or any other federal, state, or local protected class.

FURTHER INFORMATION AND APPLICATION PROCEDURE

Further information about the department is online at http://eni.gsu.edu/. Applicants should submit their letter of application, curriculum vitae (resume), recommendation letters, teaching evaluations if available, etc. for recent years, as well as evidence of publishing (where applicable), to: [TBD]
Please indicate, in your application, the position you are applying for. We intend to close the first round of reviews and applications no later than January 2018 (likely, sooner). Applications received after that time will be considered if the position remains open.

Review of applications will begin as received. Applicants will be reviewed until the position(s) is/are filled. Positions are, as always, contingent upon final University budgetary approval.
