

**GEORGIA STATE UNIVERSITY**  
J. Mack Robinson College of Business  
Department of Computer Information Systems

The Department of Computer Information Systems at Georgia State University invites applications and nominations for a tenure-track faculty position in the area of health information technology. The position is open to candidates at any rank, but we expect to hire at the level of senior assistant professor or associate professor and we seek candidates with established scholarly publication records. The ideal candidate will have an earned doctorate, have a deep understanding of both information technology and the healthcare environment, and be able to articulate a coherent research focus that sits at the intersection of these two domains. Candidates should possess strong theory-development skills and be able to apply cutting-edge methodologies appropriate for research in this domain. A current record and strong trajectory of publications in premier IS and IT journals (e.g., *MIS Quarterly* and *Information Systems Research* and publications in *ACM* and *IEEE Transactions*), other top business journals (e.g., *Management Science*, *Academy of Management Journal*), as well as healthcare-related journals are expected. The ideal candidate will also be one who is capable of raising external funds for HIT-related research.

#### ABOUT THE ENVIRONMENT

Georgia State University (GSU) is a leading urban research university located in the heart of Atlanta, Georgia, the business and cultural center of the South, and a national hub for health-care and HIT organizations. This faculty position (along with two others in the health-care management area) is being funded by GSU as part of its 2<sup>nd</sup> Century Research Clusters initiative, which aims to foster cross-disciplinary research. Each research cluster will have a total of three new faculty positions as well as nine doctoral scholarships.

The Department of Computer Information Systems is part of the Robinson College of Business and is consistently ranked as one of the top information systems departments in the world. Since 2006, the CIS Department has partnered with the Institute of Health Administration (also housed within the Robinson College of Business) both to provide educational programs for those wishing to specialize in health information technology and to advance cutting-edge research in this area. Salary level, course load, and additional research support are competitive.

#### FURTHER INFORMATION AND APPLICATION PROCEDURE

Further information about the CIS Department is online at <http://www.cis.gsu.edu/>. Applicants should register at <http://academicjobsonline.org/> (the registration is free) and upload their curriculum vita, statements of research and teaching interests, evidence of teaching performance (if any), recent publications or working papers, and at least three letters of recommendation. Applicants are **strongly** encouraged to submit their materials electronically at the above Website; but if necessary, application materials can be mailed to:

Dr. Mark Keil  
Search Committee Chair  
Department of Computer Information Systems  
Robinson College of Business  
P.O. Box 3988  
Atlanta, GA 30302-3988

Specific questions about the position or the status of your application can be directed to [mkeil@gsu.edu](mailto:mkeil@gsu.edu). Preference may be given to applications received by December 7, 2011, but applications will be accepted until the position is filled. Appointment to the position is contingent upon review and final budget approval by the University.

Georgia State University is an Equal Opportunity Educational Institution/Affirmative Action Employer.
