RESEARCH: **Description of Research Agenda:**

Professor Stevens uses experimental economics to advance economic theory in managerial accounting, financial accounting, and auditing. His managerial accounting research examines social norm behavior in agency settings, his financial accounting research examines the effects of financial information on heterogeneous beliefs of investors and financial analysts, and his auditing research examines the effects of social norms on audit quality. Professor Stevens has published his research in top academic journals including *The Accounting Review*; *Contemporary Accounting Research*; *Accounting, Organizations and Society*; *Journal of Management Accounting Research*; *Management Accounting Research*; *Auditing: A Journal of Practice and Theory*; *Behavioral Research in Accounting*; *Experimental Economics*; and *Journal of Business Ethics*. He has also published two academic books at Cambridge University Press (Stevens 2019 and Stevens 2024). Professor Stevens was recently awarded a University-Wide Outstanding Achievement in Research Award at GSU (Fall 2022).

**Academic Books:**

*In Search of a Moral Foundation for Capitalism: From Adam Smith to Amartya Sen*, Cambridge University Press (Forthcoming: January 2024): Preorder at: <https://www.cambridge.org/core/books/in-search-of-a-moral-foundation-for-capitalism/8DD9DEDE0AE51CC8C465FA537E972C0A>

DESCRIPTION (From Back Book Cover): The search for a moral foundation for capitalism has a long history that continues to unfold, yet many are unaware of this search or its implications for the future of capitalism. The recent pandemic has uncovered cracks in the foundation of capitalism and raised doubts regarding its ability to meet the broader needs of society. *In Search of a Moral Foundation for Capitalism* explains the continuing demand for a moral foundation from the perspective of business leaders, business educators, and policymakers, and tells the story of the search for that moral foundation through its leading characters. By presenting the life stories and writings of these leading characters – from Adam Smith to Amartya Sen – this book reveals the rich moral critique provided by these great thinkers and explains how that rich critique was lost through the influence of the Chicago School and its emphasis on self-interest.

*Social Norms and the Theory of the Firm: A Foundational Approach*, Cambridge University Press (Stevens 2019: Publication Date: October 2018): <https://www.cambridge.org/us/academic/subjects/economics/finance/social-norms-and-theory-firm-foundational-approach?format=PB>

DESCRIPTION (From Back Book Cover): For decades, the economic theory of the firm referred to as agency theory has dominated business research and education in the United States. Although agency theory has been influential in accounting, finance, and managerial economics, it lacks informal and nonfinancial controls. Douglas E. Stevens resolves to enhance this theory through the incorporation of social norms. Drawing on historical context related to the firm, the theory of the firm, and social norm theory related to the firm, he

demonstrates the importance of social norms in the formation and development of free-market capitalism and the firm. He also describes the latest theoretical, experimental, and archival evidence to exhibit the growing body of research that incorporates social norms into the theory of the firm. These foundations enable Stevens to create a comprehensive roadmap of agency theory that will have strong implications for practice and public policy.

**Conference Organizer:**

“The Chicago School and Research Related to Organizational and Market Risk.” Conference sponsored by the Center for the Economic Analysis of Risk (CEAR) and the School of Accountancy at GSU. Apr 5-6, 2019. The Buckhead Center, J. Mack Robinson College of Business, Georgia State University, Atlanta, GA.

“The Effects of Formal and Informal Controls on Organizational and Market Risk.” Conference sponsored by the Center for the Economic Analysis of Risk (CEAR) and the School of Accountancy at GSU. Mar 31-Apr 1, 2017. The Buckhead Center, J. Mack Robinson College of Business, Georgia State University, Atlanta, GA.

“The Effect of Social Norms on Organizational and Market Risk.” Conference sponsored by the Center for the Economic Analysis of Risk (CEAR) and the School of Accountancy at GSU. Oct 23-24, 2015. The Buckhead Center, J. Mack Robinson College of Business, Georgia State University, Atlanta, GA.

**Invited Conferences and Visiting Fellow Appointments:**

2020 University of Illinois Emerging Management Accounting Scholars Symposium (April 16-17, 2020 – cancelled due to COVID outbreak).

2019 Hoosier Accounting Research Conference, The Indiana University Kelly School of Business (September 6-7, 2019).

2018 Review of Accounting Studies Conference, The University of Notre Dame (November 2-3, 2018).

Visiting Fellow, Adam Smith Research Foundation, Glasgow University, Scotland. Spring Semester 2011.

25th Contemporary Accounting Research (CAR) Conference, “Accounting with a Point.” (November 5-6, 2010).

Market-Based Management Institute Conference/The Charles G. Koch Charitable Foundation, “Market-Based Management University.” (July 28-30, 2010).

University of Texas Spring Conference, “The Intersection of Economics and Psychology in Accounting Research.” (April 15-16, 2010).
